## **REASONS FOR ALLOWANCE**

- The following is an examiner's statement of reasons for allowance: 1. the present claims, as amended, are patentable over EP 771 662 Yamamoto or Ujita 5,784,088 or Koitabashi 5,509,140 because taken alone or in combination fail to disclose the claimed invention regarding the process for producing a fibrous material and the fibrous material produced by a glycol treatment in which the spun yarn is contacted with an ethylene oxide adduct of a glycol having a cloud point of at least 65 degrees Centigrade especially since the prior art of record describes polyethylene glycol and a polyhydric alcohol which even though they are non-ionic surfactants are not chemically equivalent to the claimed ethylene oxide adduct of a glycol having a cloud point of at least 65 degrees Centigrade. The prior art of record fails to disclose any rationale for combining the references to produce the claimed invention with the stated limitations. The double patenting rejection is withdrawn for the reasons given above in this paragraph.
- 2. Claims 18-25, 30, 42, 47-53, 65, 68-76, 80, 81, 84-86, 88, 89, 91, 93-95 are directed to an allowable product. Pursuant to the procedures set forth in the Official Gazette notice dated March 26, 1996 (1184 O.G. 86),

Application/Control Number: 09/132,746

Art Unit: 1771

claims 1-6, 11-17, 31-39, 54-62, 79, 82, 8 3, 87, 90-92, are directed to the process of making or using the patentable product, previously withdrawn from consideration as a result of a restriction requirement, are now subject to being rejoined. Claims 1-6, 11-17, 31-39, 54-62, 79, 82, 83, 87, 90-92 are hereby rejoined and fully examined for patentability under 37 CFR 1.104.

Since all claims previously withdrawn from consideration under 37 CFR 1.142 have been rejoined, the restriction requirement made in Paper of 4/03/2000 is hereby withdrawn.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to John J. Guarriello whose telephone number is 703-308-3209. The examiner can normally be reached on 8 hr. flex.

Application/Control Number: 09/132,746

Art Unit: 1771

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Terrel Morris can be reached on 703-308-2414. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9310.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is 703-308-0661.
